Summary

Hey there, I'm a web developer specializing in building responsive and intuitive web applications using a variety of technologies. I have a solid foundation in HTML, CSS, and JavaScript, and have worked extensively with React and Tailwind. I also have experience in back-end development using Node.js, Express, and databases like MongoDB and MySQL. In addition, I have expertise in Git, Github, WordPress, PHP, and SQL. My ultimate goal is to create seamless user experiences that keep visitors engaged and coming back for more. If you're looking to collaborate on your next web project, let's connect!

Experience

Founder And Developer

ComputeNepal

May 2021 - Present (2 years 2 months)
